THE DEPENDABLE WAY TO BUILD

EASI-SET BUILDINGS

ALL-PRECAST CONCRETE

EXPERIENCED • FAST • VERSATILE • DURABLE • ECONOMICAL • SECURE
The Advantages of Using Only Easi-Set Precast Buildings.

- Originator of Affordable All-Precast Modular Buildings
- Thousands of Successful Projects across North America
- Assurance of Consistency & Quality in Manufacturing
  - Local Fabrication & Customer Service
  - Meets All Current Building & ADA Codes
- One-Source, On-Spec, On-Time, & On-Budget

Pioneered more than 40 years ago. Each building, from the smallest standard to an ultra-large EASI-SPAN, is manufactured to exacting detail with high-strength, steel-reinforced, post-tensioned precast concrete.

The industry's **leading** clear-span precast roof.

- All Easi-Span Roofs are made of durable high quality precast concrete
- Roof modules are 10-feet in depth with widths of 20, 24, 30, 40 and 50 feet
- All roofs are pre-stressed & post-tensioned to provide a waterproof enclosure
- No roof coatings or membranes are required

www.EasiSetBuildings.com
The **most complete line** of buildings for every major market segment.

- Multiple solutions specific to your application
- Select from standard or customized designs
  - Engineered for your exacting needs
- Styles, finishes, & colors to match your location
- Offering complete outfitting & turnkey installation
